

Hello Trail Users,

The South St. Louis Soil and Water Conservation District (SWCD) is about to begin restoration of Mission Creek. Our work will be contained in the stream corridor, and we won't be closing any trails. But we do want to make sure you are safe.

Construction will be taking place in the Fond du Lac neighborhood near the SHT spur trail, Indigenous Land bike trail and 131st Avenue West. Please be aware of your surroundings and stay away from equipment and the construction zone. Keep pets on-leash for their safety.

Please call Ann at the SWCD office with any questions or concerns (218-723-4867).
